TRIAx is an ENGINEERING CENTRIC CNC MACHINING Company

Manufacturing & Supply Chain

- CNC Milling up to 5-Axis
- CNC Turning & Turn-Mill
- Swiss Turning
- Post-Processing – Plating, Anodizing, Electropolishing
- Extensive supply chain network
- Full Mechanical Engineering Capability
- Complete Manufacturing Source

Industries Served

- US Navy
- Marine
- Powertrain
- Industrial Equipment
- Mold & Die
- Energy & Power
- General Machining

Materials Processed

- Stainless & Carbon Steels
- Aluminum
- Brass / Bronze
- Titanium
- Metal Castings
- Various Alloys
- Delrin / Polymers / Plastics

Past Performance

- Components for diesel engine on Navy CCA Vessel
- Marine steering system machined parts
- Analysis & design improvement - animatronics
- Tight tolerance machining for industrial applications
- Copper 9mm projectiles for ammunition
- Sourcing new turbine casting for Navy engine

Differentiators

- Close collaboration with Navy Dev Group
- Staff engineer's ability to understand customer processes & parts
- Ability to pivot quickly to launch new programs
- Both high and low volume, large and small part manufacturing capabilities
- Climate & humidity-controlled environment for quality control
- Personal service & fast response time

Typical Solutions We Have Provided

Complex Cubic
Shapes

US NAVY INNOVATION MARINE

Flat Plate
Aluminum

High Precision
Large Parts
